

Vote for Tian Harter,

action-oriented environmentalist!

I'm running for City Council because Mountain View is a great place to live and I want it to stay that way. We need:

Better transit services

Solar power in city buildings

More affordable housing,  
especially near transit

Pedestrian and bicycle safety

To work together on  
environmental issues

For more information please visit

## Background:

I have lived in Mountain View since 1984, except for eight years in the 1990s when I worked in Sacramento, Washington DC, and Orange County. When I left I was still an electrical and software engineer, working for computer and information management companies. In 1999 I returned to Mountain View with enough resources to work full time as an environmental activist. Since then I have focused on building awareness of the need for structural changes in our economy to deal with climate change issues.

Last spring I was a candidate for U.S. Senator. I got 37% of the votes in the Green Party Primary, and was the front runner in many counties, including ours. The goal of that campaign was to tell as many people as possible, "We need to stop voting for oil companies at the gas pump." I have a track record of running clean campaigns that get the word out on important issues.

In my decade plus of living in Mountain View, I have been a reliable community volunteer and activist. I was a founding member of the Mountain View Voices for Peace and am still an ongoing activist with them. I have been Technology & Society Committee (TASC) Secretary since 2003. I graduated from Leadership Mountain View (LMV) in 2004 and have since been active at many Chamber events.

I have Bachelors & Masters Degrees in Electrical Engineering from Bradley University in Peoria, Illinois.
